EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney of Record, Renato Deluna of 3COM, Reg.# 36780, Phone #508-323-1265 on 06/19/2006. The application has been amended as follows:

Cancel claims 29-34.

Claims 1-28 Allowed.

2. The following is an examiner's statement of reasons for allowance: As cited in applicant's arguments submitted on 03/14/2006, Independent claims 1 and 13 require that a first endpoint generates a first timestamp and a second timestamp.

The second timestamp is generated by said first endpoint by being played by said first endpoint at that moment in time, the second timestamp corresponds to data samples from the second endpoint.

The second endpoint also generates two timestamps that is to be recorded, similarly to the above.

The prior art of record teaches having a first and second timestamp sent and recorded that were generated by their respective endpoints but does not teach, both endpoints generating a first and second timestamp, whereby one of the timestamps is generated by playing the data samples from the other endpoint at that moment in time.

Art Unit: 2614

As detailed by the applicant in his arguments, this novel approach effectively records four channels of IP voice data utilizing only two actual channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
